2. Add salt and mix again, breaking up any clumps in the salt.
3. Add preservative, if using, and transfer to clean, sterile jars.

Usage & Packaging:

- We love packaging body scrubs in our 4 Ounce PET Flat Plastic Jars with White Lids. The wide mouth of these jars allow massage therapists to easily access the product. The crystal clear walls of the jars allow customers to see the gorgeous color of the scrub.
- To use, mix well, then apply a generous scoop of scrub to the skin before gently massaging in a slow, circular motion. Salt glow massages are best performed by professional massage therapists who understand the right amount of pressure that should be applied during this type of treatment.
